

ILLINOIS INNOVATION NETWORK SENIOR DESIGN PROJECTS

Connecting companies with top Illinois talent

The Illinois Innovation Network's senior design projects will match leading Illinois companies with top talent from the state's public universities.

The two-semester program will allow student teams to analyze and solve real-world problems faced by some of Illinois' most innovative companies, providing key benefits to both the student and the corporate partner.

TRANSFORMATIONAL POWER

- The IIN includes all 12 of Illinois' public universities
- IIN members can connect companies with thousands of senior-level students each year
- IIN will be companies' single contact point to access state universities' top engineering and technology programs

TARGET BUSINESSES

We invite you to sponsor this important, high-profile regional initiative

- Strengthen your talent pipeline while solving real-world problems
- Promote your brand and message among diverse student bodies while developing meaningful relationships with participating faculty and universities
- Partner with Illinois public universities to promote student mobility and overcome geographical equity gaps
- Receive logo placement and recognition on the IIN website and newsletters, and an invitation to an IIN Council meeting
- Your commitment: \$25,000 to sponsor 2 projects over 1 year

IIN COMMITMENTS

Fall 2022 Participating IIN Institutions

- University of Illinois Chicago
- Northern Illinois University
- Southern Illinois University Carbondale
- Southern Illinois University Edwardsville
